Don't Knock Boost

If you want to live in a kind of a town,
 Like the kind of a town you like,
 You needn't slip your clothes in a grip;
 And start on a long, long hike;
 You'll only find what you left behind,
 For there's nothing that's really new;
 It's a knock at yourself when you knock
 Your town;
 It isn't your town, it's you.

You Can Get Business in 1922 If You Fight For It

THERE is going to be business in 1922 for those who go after it. It will not be easy going, you will have to sell and sell hard. You will find The Gazette your best help in 1922, an adequate volume of advertising in this medium will practically assure your success.

The Want Ads Prove Which Way The Wind Blows

As a weather vane shows which way the wind blows, so do the want ads in a newspaper show which paper the people place their confidence in. The Gazette has become known as the paper with the Want Ads. Since the people show their choice in placing their little ads, does it not prove that these same people place their confidence in all Gazette advertising.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

INTRODUCTION

With a population of over 50,000 people, a climate of wonderful purity and healthfulness, and an absence of smoke or dirt of big manufacturies, Colorado Springs and the Pikes Peak Region offers an ideal opportunity as a residence center.

The city owns a mountain water system valued at more than \$3,500,000, and has several miles of sewer involving an enormous cost. The city boasts of 10.15 miles of paved streets with a total of 143.1 miles of street, all of which is hard surfaced.

The city park system embraces 2,700 acres, all of it improved and including some of the most famous mountain peaks in the entire country.

Here, too, is located the Modern Woodman Sanatorium—a model of sanatoria construction and efficiency. The Union Printers Home—labor's greatest monument—is here, too, as is the State School for the Deaf and Blind.

The city long has taken rank as an educational center. The public school system ranks among the highest in the country from the standpoint of efficiency and educational methods; and Colorado College, located in the heart of the city, takes rank as one of the best Liberal Arts institutions in the West.

Located at the foot of Pikes Peak, Colorado Springs stands in the geographical center of some of the most wonderful natural scenery in the country. The city lies at an altitude of 6,335 feet above sea level—and the beauty of its climate has won for it the world-adopted appellation "The City of Sunshine." Weather records for the past 25 years bear out the truthfulness of this name, with an annual average of 180 clear days, 128 partly cloudy days, or a total of 308 days of sunshine.

In presenting this, the eighteenth volume of the Colorado Springs and Manitou City Directory, to its many patrons and the public in general, the publishers realize that in no publication is accuracy more desirable or necessary than in a city directory, and therefore, the greatest vigilance is used to have the spelling of the names correct, as well as the occupation and address. It is a well-known axiom with directory publishers that, "to find a name you must know how it is spelled," and yet, the directory is sometimes blamed because a name cannot be found, when the trouble really is that the name was looked for under the wrong spelling. Names are, of course, sometimes incorrectly spelled in the directory. That is largely unavoidable, and is usually the result of the carelessness or indifference of the person furnishing the information.

The directory is the standard work of reference for all the people in which they are all represented and interested; it is the most accurate and complete record of the people, their occupations, their institutions and their progress. No other work shows so clearly the changes continually taking place.

FOR YEARS Sommers meats have
been known for their fine quality,
which can only be obtained through ex-
perience and careful selection.

And while we will always take pride
in this department, it is only one de-
partment which goes to make this a
complete grocery and food market.

For instance, we have a full line of
fine pickles in bulk, a counter for hot
foods, salads, sandwiches, cass, also
departments for fruits, vegetables,
fine coffees, etc.

Attentive service whether you call
