

A Universe of Stories

Contagion

by Erin Bowman
Responding to a distress call on the distant planet of Achlys, Thea Sadik and her search-and-rescue crew are confronted by a zombie-like outbreak that forces them to uncover a monstrous enemy.

We Have No Idea

by Jorge Cham
A book of infographics, cartoons and lighthearted scientific explanations to fill in gaps in layperson cosmological knowledge, offering coverage of topics ranging from quarks and neutrinos to gravitational wave and exploding black holes.

Aurora Rising

by Amie Kaufman
Told in separate voices, eighteen-year-old Tyler Jones, top graduate of Aurora Academy, and a group of misfits and troublemakers embark on their first mission with Auri, a stowaway from the distant past.

Dragon Pearl

by Yoon Ha Lee
Longing for adventure in the Thousand Worlds, away from the strict rules that force her to hide her descendance from fox spirits, 13-year-old Min embarks on a quest to find her brother, who has been accused of abandoning his post to search for a mystical object of power.

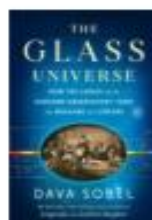

Universe of Stories

Afar

by Leila Del Duca
Fifteen-year-old Boetema develops the ability to astral project to other planets. On her own planet, with her parents gone, she and her thirteen-year-old brother, Inotu, must cross a dangerous desert to flee a cyborg bodyguard.

The Glass Universe

by Dava Sobel
The story of the scientific contributions of a group of women working at the Harvard College Observatory from the late 1800s through the mid-20th century, tracing their collection of star observations.
